

Shaikh Aseel

AI Full-Stack Developer | Flutter App Developer | Backend Developer

+91 9730150126 | shaikhmdaseel@gmail.com | [Aseel](#) | [GitHub](#) | [LinkedIn](#)

TECHNICAL SKILLS

Programming Languages: Java , Python, Dart, JavaScript, SQL, HTML/CSS , OOP

Mobile Development: Flutter, Dart, React Native, Firebase, Google Play Console, App Store Deployment

Backend Development: FastAPI, Flask, Node.js,, REST APIs, Gunicorn, Nginx

Databases: MySQL, Firebase Realtime DB , Supabase

AI / Machine Learning: PyTorch, OpenCV, MediaPipe, Hugging Face (Spaces & Hub), Prompt Engineering, LLM Integration, LangChain, OpenAI API, Pandas, NumPy

DevOps & Deployment: Docker, Redis , Hugging Face Spaces, Vercel, Git, Linux ,

Tools & Platforms: Git/GitHub, VS Code, Android Studio, Google Search Console , Cloudflare

EXPERIENCE

Flutter Development Intern | [Certificate](#)

2024 | 3 Months

Dream Webbies Technologies · On-Site

Nanded , MH, India

- Developed and enhanced cross-platform mobile application modules using Flutter and Dart, focusing on responsive UI and smooth user experience.
- Collaborated on frontend and backend integration, wiring REST APIs and managing application state across features.
- Identified, debugged, and resolved functional issues to improve app stability and reduce runtime errors before release.

PROJECTS

RemoveAnything.in | [Details](#)

Production | 2026 May – Present

Flask · Python · OpenCV · Docker · Nginx · Gunicorn · Hugging Face Spaces

- Built and deployed an AI-powered image object/background removal platform.
- Processed 400+ images within the first two months and acquired 50+ organic users.
- Deployed production inference using Docker, Gunicorn, Nginx, and Hugging Face Spaces.
- Designed the complete upload AI processing download workflow.

RealEstate AI | [Github](#)

Flutter - Node.js - Express - MySQL - AI APIs – Twillio - Ngrok - REST APIs

- Developed an AI-powered real estate voice calling platform for automated lead qualification.
- AI agent calls users automatically using phone numbers and conducts natural conversations.
- Integrated Ngrok for webhook communication and real-time call events.
- Stored customer details, call logs, conversation history, and analytics securely in MySQL.
- Built REST APIs for lead management, user authentication, and reporting dashboard.

ShareWith | [Github](#)

In Development | 2026

Flutter · Firebase · Nearby Connections API

- Building an offline peer-to-peer file sharing application inspired by ShareMe.
- Implementing device discovery, secure transfer, and intuitive user experience.

Pixtract (OCR to PDF Scanner)

Flutter · ML Kit · PDF Processing

- Built a document scanner that extracts text using on-device OCR and generates clean PDFs.
- Designed an optimized PDF generation pipeline for fast document scanning and export.

Caesar Cipher Encryption Website | [Link](#)

HTML · CSS · JavaScript

- Developed an interactive web application for Caesar Cipher encryption and decryption.
- Implemented customizable shift-key logic with real-time output preview.

EDUCATION

SGGS Institute of Engineering & Technology, Nanded

B.Tech, Information Technology CGPA: 8.0

Aug 2025 – Jun 2028

Diploma, Computer Science (MSBTE)

Gramin Technical & Management Campus, Nanded Percentage: 90.17

June 2022 – May 2025

CERTIFICATIONS

- Introduction to Model Context Protocol — Anthropic (Issued Jul 2026)
- Certificate of Completion: Claude 101 — Anthropic (Issued Jul 2026)
- Deloitte Australia – Data Analytics Job Simulation — Forage (Issued Aug 2025)
